"OUR BACHELORS" FINE PRODUCTION

Saint Barbara's Guild Bazaar a
Splendid Social and Finan-
cial Success—"Our Bach-
elors" Makes Big Hit.

The Bazaar and Entertainment
given by the ladies of Saint Bar-
bara's Guild, last week, was a sat-
isfying financial success, the many
dainty and practical articles on dis-
play finding ready sale.

Thursday evening, dancing was
the principal feature of entertain-
ment, with the introduction of a
fancy dance, by Miss Dorothy Car-
ter and a Scotch ballad by Murray
Foster. Dainty Miss Dorothy exe-
cuted the pretty dance with charm
and grace, and clever Murray Fos-
ter "took the house" with the ex-
cellence of his rendition.

The production of the sparkling
comedy, "Our Bachelors," Friday
night, fully met with the anticipa-
tion of the large audience assem-
bled. The play is certainly a fun-
making vehicle—"a laugh in every
line and many between"—amusing
dialogue and mirth-provoking
situations, and its production was
a reflection of the dramatic ability
of A. L. Wells, who managed and
directed the comedy, and also sus-
tained a leading role.

Mrs. Wm. Von Hacht, Mrs.
Chester Pressey, and Misses Anita
Ganser and Gladys Simmons were
splendid in their respective parts,
with honors evenly balanced. The
gentlemen of the cast—Messrs.
Ralph Hotz, A. L. Wells, Raoul
Emparan, Paul Thomson, Wm.
Von Hacht and Emery Ranker—
were equal to the interpretation of
their respective characters, each of
the cast infusing into his part a
distinct and fitting personality,
which invested the comedy with
pleasing naturalness.

THE FRANK MARIANA BENEFIT

The very worthy Benefit Ball,
which is to take place at Chau-
vet Hall, Glen Ellen, tonight, is
an event which should not be for-
gotten by the many Sonoma Val-
ley residents who rarely miss the
pleasures of the dance.

This Glen Ellen function is
a benefit of the most deserving
character, as we detailed to our
readers last week. You will re-
member we told you, readers of the
Index-Tribune, that the proceeds
from this dance are to pay for the
treatment of little Frank Mariana's
eyes, in an effort to restore the
child's sight.

Good music has been provided
for the occasion, and the price of
admission has been placed at the
extremely moderate sum of fifty
cents per couple.

MOOSE TO HAVE SOCIAL EVENING

Big Christmas Tree Loaded with
Gifts for the Little Ones—A
Musical Program, To Be
Followed by Dancing.

The Christmas Entertainment,
to be given Saturday night of
next week, Dec. 19th, at Union
Hall, by the Sonoma Moose Social
Club, promises to be the jolliest
and best attended affair given in
many months.

The event has been undertaken
not as a money-making proposition,
as has been made definitely clear,
but with the sole object of giving
to big and little folk a few hours
of such enjoyment as one gleans
only during the holiday season.

An immense Christmas tree,
whose fragrant branches will be
weighted with gifts to gladden
childish hearts, is to be unloaded by
merry old Santa Claus himself, and,
besides, there's to be a program of
pleasing musical numbers rendered,
which is to be followed by dancing,
with music by the Pauli-Gotten-
berg Orchestra.

And all of this, mark you, for
the nominal sum of twenty-five
cents. There will be no admission
charged children who are accom-
panied by their parents.

The gentlemen who have the
affair in hand are: Messrs. Paul
Robin, Wm. Russell, Thos. Lewis,
E. Coates, F. Price, E. Castau-
nasso and C. Weisshaar.

ART EXHIBITION AND SALE SUCCESS

The Art Exhibition and Sale has
been proving a decided attraction
and help to those who prefer their
holiday gifts to be hand-wrought.
Hence, the beautiful hand-painted
china, paintings and needlework
shown by Mesdames H. J. Wicker
and H. H. Eaton, and Miss Anna
Pemberton are meeting with ready
sale, and the ladies are regretting,
because of the excessive demand
for their work, that the thought of
this holiday sale was not an earlier
conception. All of the ladies—and
gentlemen, too—of the Sonoma
Valley, are invited to call at the
studio, which has been tastefully
fitted up in Union Hall, and look
at the display. The ladies had
commenced to send out invitations
last week, but this was discon-
tinued, as the fact was realized that
it would be impossible to reach all
who were interested by this method.

GRAND BALL NEW YEAR'S EVE

Woman's Club To Usher in 1915
with Merry Revelry—Bril-
liant Function—Lady
Floor Managers.

Will truly be a night of merry
revelry in Sonoma, with a Grand
Ball, given by the Woman's Club,
as the principal source of enter-
tainment.

The original plan of the ladies,
to give a masquerade, has been
abandoned—to the satisfaction of
some, but to the disappointment of
the majority, so it appears from
general comment. New Year's Eve
is the one holiday in the twelve-
month at which King Sport reigns
supreme, and as ruler over a Mardi
Gras fete provides the seemingly
most acceptable and fitting court
for the merry monarch, it is some-
what regrettable that plans were
altered.

However, the ladies of the com-
mittee of arrangements—Mesdames
H. J. Wicker, L. V. Emparan and
A. W. Adler, with the Club's en-
ergetic president, Mrs. Carrie A.
Burlingame—with perfect under-
standing of the true spirit of the
season—of the brightness, and the
gayety, and the good fellowship
that should predominate, are plan-
ning beautiful decorations and a
number of novel innovations of a
festive nature.

On this occasion, the floor is to
be managed by two of our city's
most attractive and popular ma-
trons—a departure quite gratifying
to the sterner sex. Perfect man-
agement of the floor is assured,
too.

Music is to be provided by the
Pauli-Hansen Orchestra, and the
latest compositions—that means a
number in syncopated time—will
lure the most reluctant feet into
the mazy dance.

TO ADDRESS THE WOMAN'S CLUB

Mrs. Percy V. Long, who is the
president of the San Francisco
district of Federation of Women's
Clubs, will address the members of
the Sonoma Valley Woman's Club
Friday afternoon of next week,
December 18th.

Mrs. Long will discuss, princi-
pally, the last Biennial of the Fed-
eration of Women's Clubs held in
Chicago, in June, and will impart
much valuable information on va-
rious lines of club work.

Mrs. B. F. Campbell is to be
hostess of the afternoon, and a
special musical program is in course
of arrangement.

Wanted—Reliable woman to d
general housework. Inquire of

Provisions of the New Emergency Internal Revenue Law.

For the benefit of shippers throughout the State, a great many of whom are in doubt as to the provisions of the new Emergency Internal Revenue Law, in so far as it applies to freight shipments, the Southern Pacific Company, through Freight Traffic Manager G. W. Luce, is endeavoring to make all points clear.

"The law provides that a one cent revenue stamp be placed on each bill of lading, manifest, or similar memorandum," says Luce. "The shipper must affix this stamp to the bill-of-lading, and the railroads cannot accept and forward a shipment until this is done. Such is the ruling of the United States Treasury Department.

"The department has also ruled that where freight is accepted at non-agency stations, it must be receipted for by the conductor accepting it. He must see to it that the stamp is attached to each of such receipts and cancelled as required by regulations before such shipments can be accepted. In the case of perishables or other instances where such receipts cannot be given by conductors, the goods may be accepted and transported in advance by the affixing of the stamp, but in that event the receipt must be delivered to the destination agent and he must require the stamp from the consignee.

"To make it even plainer, the law provides that this stamp must be affixed before the railroads can accept a shipment; and in cases of perishables, they cannot deliver the shipment until the stamp is affixed on the receipt and cancelled. The law is penal, not civil. Its violation by any person or corporation is punishable in the Federal Courts. The shipper or person is required to cancel the stamp, by writing across the face his initials and the date. Some shippers have been under the impression that, because the carriers have a limited supply of stamps on hand for the accommodation of their customers, the stamps were to be distributed by the roads free. This impression is erroneous. The law provides that the shipper pay for the stamp, affix, and cancel it.

"For the convenience of its customers, the Southern Pacific has distributed a limited supply of stamps to its agents, that they may be obtained from the latter until the Government has completed its arrangements for distributing them through its own agencies."

HIGH SCHOOL NOTES

Rehearsals for the operetta, "A Nautical Knot," have been started this week. This will be presented some time in the early part of next term, the date not yet having been decided upon. The cast and further particulars will be given later.

A dance will be given at the High School, Friday night of next week, December 18th. This party has been long looked forward to, for on several occasions it has been postponed, but everyone is assured that this time there will be no postponement.

Last night (Friday) the Girls' Basketball Team were to play the Girls' Basketball Team of Santa Rosa High School at that town. This game will have been the first attempt of the Sonoma girls, but it is expected that they will put up a hard and fast game.

Another game of basketball, also scheduled for last night, was between the Apollos Club, of this city, and the High School team. The latter team, due the hard ex-

perience of the season, and persistent practice, is in good condition, and an exciting contest had been expected. Union Hall was the scene of the conflict.

The regular meeting of the Agricultural Club of the Sonoma Valley Union High School was held Friday, Dec. 4th.

The meeting was called to order by the president, then the roll was called.

A business letter from Mr. Doty was read by the president and talked on.

At the next regular meeting an election will be held to vote on the crop to be raised this coming year. It is stated that the winner will go on the trip to Washington, D. C., with the other winners of the State.

The matter of how the money will be raised for the winner's trip was discussed, but no definite plans were formed.

The meeting then adjourned. W. R. HARRISON, Secretary.

NEWS NOTES

BRIEFLY TOLD

Movements of Sonoma Valley Residents and Their Friends

Other Local Notes of General Interest.

Mrs. Tessa Rust, who had been a guest at the Wm. F. Clewe home for a period of ten days, returned to her home in Berkeley yesterday afternoon.

Mrs. L. S. Simmons will entertain Saint Barbara's Guild, Tuesday afternoon of next week, Dec. 15th. Mrs. Simmons is to be assisted by her charming daughter, Miss Gladys, and Guild members participate a pleasurable afternoon at the hospitable home.

Mrs. Robt. Hall is enjoying a visit from her mother, Mrs. M. L. Carter, of Alameda, whose sojourn at the Hall home will continue until after the holidays. Mrs. Hall entertained her little niece, Miss Dorothy Carter, who danced so cleverly at the Episcopal fete last week.

On account of Christmas, the regular meeting of the Women's Auxiliary, P. P. I. E., will be held in the City Hall, Saturday afternoon of next week, December 19, at three o'clock. The new bulletins will be read, and matters of general interest discussed. A cordial invitation to attend is extended to the public.

Chas. Stornetti, Sonoma Valley's well-known dairyman, was in town Tuesday, and expressed himself as immensely gratified with the late rains, which have been of inestimable worth. Mr. Stornetti owns one of the finest farms—five hundred and twenty-five acres—in the county, the greater part of which is devoted to his dairy interests, affording splendid pasturage for stock.

Mrs. H. H. Granice returned to her home in this city, Thursday evening, from San Francisco, whither she was called, last Saturday, by the alarming illness of her mother, Mrs. S. E. Munck. On Wednesday, Mrs. Munck underwent a dangerous surgical operation in the German Hospital, and latest reports bear the welcome news of the favorable condition of the patient.

Maxwell Gray, who is a soldier servant of Uncle Sam, but lately returned from the Philippines, is a guest at the country home of O. Gerick. Tuesday, Mr. Gerick, the Misses Ethel, Marguerite and Agnes, and Master Bertram Gerick, accompanied by their guest, enjoyed a motor trip to English Hill, near Sebastopol, where Mrs. Gerick is visiting with her son Otto. The trip was made in the fine six-passenger Hudson of the Mission Garage, with that skillful and popular young driver, Joe Andrieux, at the wheel.

Mr. and Mrs. Ernest Lynch (nee Ramona Granice) left their mountain stock ranch on Eel river, Mendocino County, on the 5th inst. for Ukiah, where they will spend the Christmas holidays with relatives. They had been snowed in for several days by a mighty storm and, as provisions were running low, they closed up their ranch house and started for Ukiah on horseback through snow over two feet in depth over a mountain trail inaccessible to anything except thoroughly trained mountain horses. They will return to their ranch immediately after the holidays.

The annual meeting of stockholders of the Sonoma Ice and Brewing Co., Inc., was held in the office of the company, last Tuesday night and was a well attended and harmonious meeting. The following directors were chosen to serve for the ensuing year: H. H. Granice, A. Beretta, Enrico Eraldi, Chas. Dal Poggetto, Jos. Felder, N. J. Heggie, F. Batto, E. Niche and A. Froment. The following were elected officers of the corporation: President, Chas. Dal Poggetto; vice president, A. Froment; secretary, A. Beretta; treasurer, H. H. Granice. The report of the secretary showed the corporation to be in fine condition, with 4000 assets and \$10,000 liability.

Early peach and cherry blossoms adorned the attractive home of Mr. and Mrs. Horatio Apple, Thursday, when their daughter, Mrs. Carrie A. Burlingame, was hostess to the Bridge-Whist Club. The bright interior was a pleasing contrast to the wind-tossed and bleak December day out-of-doors, and the hours of the afternoon passed rapidly and interestingly for the players. Miss Tessa Rust, of Berkeley, and a guest of Mrs. Wm. F. Clewe, carried off the honors of the game, and was awarded a pretty, hand-painted cup and saucer. Mrs. Burlingame served to guests the most delicious of refreshments, and otherwise maintained her reputation as a delightful hostess.

WHAT OUR NEAR-BY

NEIGHBORS ARE DOING

VINEBURG NOTES

Ed Burne, of San Francisco, is spending a few weeks at Wingo with his friend, Louie Semino.

Mrs. F. McGill, who had been quite ill, spent Tuesday at the home of her sister, Mrs. J. Schumacher.

Thos. Walsh, formerly of El Verano, but now of Oakland, spent Wednesday at the Erhard Steiger home.

Mrs. N. Mainwright returned to her Sonoma home, Sunday, after a week's visit with relatives in Sonoma Valley.

Of course, the weather was very inclement (it always is when you want to have a good time), but I should worry, as we had a good time, anyhow.

The managers done all in their power to make everyone enjoy themselves and everybody did. A large number of people from all parts of the valley were present, and Old Sonoma was well represented by the following named: Mr. and Mrs. Fred Hansen, Mr. and Mrs. J. A. Kinsella, Mrs. May Ehrlebach, Messrs. Tom Mullen, J. P. Valente, Chas. Kelly, James Modini, Gus Marcey, Pete and Emil Basaglia, and others too numerous to mention.

Each of the Sonoma delegation returned home with a bird. Of the Sonoma boys, Pete Basaglia, the well known stone mason and contractor, was the "nobler" Roman of them all, landing the largest bird of the day. Lucky boy, Pete!

Mrs. J. A. Kinsella upheld the skill of the fair sex by piercing the target "dead center," making the prettiest shot of the day, and winning a fine bird.

At seven o'clock, p. m., a fine supper was served, at which covers were laid for fifty. Later, a few hours were spent in song and mirth, after which the happy company dispersed, thanking Messrs. Brown and Hansen for the merry afternoon spent in Vineburg.

A turkey shoot for me!

Yours as ever,
FANNIE FERDALE.

Mr. Caskey visited the metropolis on Tuesday last.

D. Volquardsen, the well known artisan man, was a passenger on Tuesday afternoon's train on a business trip to the day cities.

Mr. and Mrs. A. W. Lehrke and Mr. and Mrs. Edward Goetz, of San Francisco, spent the week-end at New Vineburg Inn and Los Amigos.

Chas. Grosko, of was called to the Bay City, Sunday last, on business. Funny that Sunday has got to be such a busy day, but business is business.

Sure, every fair-minded person wanted Sonoma Valley "wet," last November, and now they are getting what they wanted. Good thing for the country, too.

Abram Marcucci, a well-known young nind of this vicinity, took a trip to Hoodman Bay, last Tuesday, and returned with the limit—all fine canvas-backs. Beauties, sure.

Fred Batto, president of the First National Bank, of Sonoma, and one of the valley's most progressive business men, transacted business in the Exposition City on Wednesday last.

Who will be our marshal after next election?—that is the question now before the public of Vineburg. Is it to be the ex-mayor or our present marshal? "Minnie Madden" will tell you next week.

Mr. and Mrs. John Batto returned home on Saturday evening, after a week's visit to the Exposition City, where they were guests of Mr. and Mrs. August Figone. They report a pleasant time.

Henry Forni has just completed the building of an up-to-date chicken house for Mrs. Brown at her poultry yards near here. The building is 34x80 and will have all the latest improvements for the welfare of poultry.

On Wednesday last, Francis, the little son of Mr. and Mrs. Arthur Batto, while playing at his home fell and dislocated his shoulder blade. Dr. Irving C. Gobar was summoned to attend the little fellow, who is getting along nicely.

EASY JIM.

SCHELLVILLE NEWS

Fred Mornement was a visitor in Petaluma, Saturday last.

Chas. Potter, road overseer, made a business trip to Santa Rosa, Monday.

A few San Francisco friends spent Sunday with Mrs. E. P. Steddom.

Chas. Cutter was in the metropolis, Monday, combining business with pleasure.

J. Kehoe, of San Francisco, was the guest of Mr. and Mrs. M. Miller, on Tuesday.

Ed Burne, of San Francisco, is spending a few weeks at Wingo with his friend, Louie Semino.

Mrs. F. McGill, who had been quite ill, spent Tuesday at the home of her sister, Mrs. J. Schumacher.

Thos. Walsh, formerly of El Verano, but now of Oakland, spent Wednesday at the Erhard Steiger home.

Mrs. N. Mainwright returned to her Sonoma home, Sunday, after a week's visit with relatives in Sonoma Valley.

Of course, the weather was very inclement (it always is when you want to have a good time), but I should worry, as we had a good time, anyhow.

The managers done all in their power to make everyone enjoy themselves and everybody did. A large number of people from all parts of the valley were present, and Old Sonoma was well represented by the following named: Mr. and Mrs. Fred Hansen, Mr. and Mrs. J. A. Kinsella, Mrs. May Ehrlebach, Messrs. Tom Mullen, J. P. Valente, Chas. Kelly, James Modini, Gus Marcey, Pete and Emil Basaglia, and others too numerous to mention.

Each of the Sonoma delegation returned home with a bird. Of the Sonoma boys, Pete Basaglia, the well known stone mason and contractor, was the "nobler" Roman of them all, landing the largest bird of the day. Lucky boy, Pete!

Mrs. J. A. Kinsella upheld the skill of the fair sex by piercing the target "dead center," making the prettiest shot of the day, and winning a fine bird.

At seven o'clock, p. m., a fine supper was served, at which covers were laid for fifty. Later, a few hours were spent in song and mirth, after which the happy company dispersed, thanking Messrs. Brown and Hansen for the merry afternoon spent in Vineburg.

A turkey shoot for me!

Yours as ever,
FANNIE FERDALE.

Mr. Caskey visited the metropolis on Tuesday last.

D. Volquardsen, the well known artisan man, was a passenger on Tuesday afternoon's train on a business trip to the day cities.

Mr. and Mrs. A. W. Lehrke and Mr. and Mrs. Edward Goetz, of San Francisco, spent the week-end at New Vineburg Inn and Los Amigos.

Chas. Grosko, of was called to the Bay City, Sunday last, on business. Funny that Sunday has got to be such a busy day, but business is business.

Sure, every fair-minded person wanted Sonoma Valley "wet," last November, and now they are getting what they wanted. Good thing for the country, too.

Abram Marcucci, a well-known young nind of this vicinity, took a trip to Hoodman Bay, last Tuesday, and returned with the limit—all fine canvas-backs. Beauties, sure.

Fred Batto, president of the First National Bank, of Sonoma, and one of the valley's most progressive business men, transacted business in the Exposition City on Wednesday last.

Who will be our marshal after next election?—that is the question now before the public of Vineburg. Is it to be the ex-mayor or our present marshal? "Minnie Madden" will tell you next week.

Mr. and Mrs. John Batto returned home on Saturday evening, after a week's visit to the Exposition City, where they were guests of Mr. and Mrs. August Figone. They report a pleasant time.

Henry Forni has just completed the building of an up-to-date chicken house for Mrs. Brown at her poultry yards near here. The building is 34x80 and will have all the latest improvements for the welfare of poultry.

On Wednesday last, Francis, the little son of Mr. and Mrs. Arthur Batto, while playing at his home fell and dislocated his shoulder blade. Dr. Irving C. Gobar was summoned to attend the little fellow, who is getting along nicely.

To succeed one must sail for the port he wishes to enter. The successful artist, scientist or philosopher is the man who never wavers, but ever keeps his end in view. The painter who recopies some great work of art, keeps looking at his model while he works. The Christian is the person who lives to reproduce Jesus in his life. He will find it needful to study his Lord, to make many corrections, to watch the shades and blendings of virtue.

"Looking unto Jesus, the Author and Finisher of our Faith" will be our topic in this worship. Jesus was a church attendant; He considered that it was wise and needful, and how can you expect to succeed doing other than the most perfect character in history?

The Y. P. S. C. E. meeting will be at 6:30 p. m. Everyone is invited to attend.

Prayer meeting is at 3 p. m. Wednesday.

Evening worship will be held at 7:30 o'clock.

The evening will be devoted to the consideration of that organ in the heart which is like the heart in a very important matter. You can see with it and in it is ample evidence of a personal God. If there is a God, common sense will indicate to you several things.

FINE VALLEY POULTRY-YARDS

F. C. Rhode Installing Many Incubators—Extensive and Substantial Building Improvements Made.

F. C. Rhode, whose splendidly-kept poultry yards are situated on the Hyde Tract, below town, has made many substantial improvements on the property during the fall. An incubator house, 20x80 feet in dimensions has been constructed, and an order has been placed by Mr. Rhode with a Petaluma firm for the manufacture of twenty-five incubators, each having a capacity of five hundred and forty eggs. These incubators will be installed within the next two weeks. A brooder house, 18x80 feet, has also been erected, and within this building between four and five five thousand chicks can be accommodated.

Mr. Rhode, whose ranch comprises seven acres, has one of the best and most completely-equipped poultry yards in the county, and if conducting the business in a thoroughly scientific and intelligent manner will count for success—and it assuredly does in the poultry business—then the energy and enterprise of Mr. Rhode will be fully compensated.

Mr. Rhode's stock of poultry is made up entirely of South Carolina White Leghorns, from which he believes the best results are to be achieved.

Good stock, and good management, these are Mr. Rhode's axioms, and by the strict adherence to these points the gentleman feels sure he will attain the highest standard of success.

Discussing the special necessity of good management, Mr. Rhode placed in our hands a copy of the "Useful Poultry Journal," a Missouri publication, from which we take the following very excellent article:

"The better the management the surer the success. That is true in all business. Reckless methods cannot be tolerated. There are men in this world who are excellent workers—reliable, energetic and economical when working for others—but they cannot manage a business of their own. They do not seem to be able to properly lay their own plans, but they can work out others' suggestions to the very letter. Would one expect such men to successfully manage a poultry farm? Would it be possible to successfully manage any business?

Matings must be made for the very trade that is in best demand. Stock must be bred at the time of year when it will come into the most profit.

Feed must be given that will work the desired effects in the quickest time.

The market must be studied that the best prices may be secured. In short, every little detail must be handled in a strictly business manner, so that the best good can come out of the least amount of labor and cost.

Such work cannot be accomplished by a reckless, careless fellow, especially one who never succeeded at anything he ever undertook.

Some men manage business just like some men drive horses—they are constantly jerking on the reins, nearly jolting the animal's head off, and never seemingly making any headway.

What I call good management is to have houses that are comfortable—warm in winter and cool in summer; stock mated and bred during the months of February to June, so as to have layers for September to January, the months when the eggs in the markets are getting scarce, and the prices going higher.

Such pullets will continue good work right through the winter and spring, and by February all the left-over hens will be adding to the pile.

The value of such work is shown first, in giving eggs at a season when they bring the best money—and it will be giving eggs in January, February and March, in large quantities, when the product can be turned into broilers or roasters, and just when they, too, command the best prices.

It is not the number of hens a man keeps so much as how he keeps them. A study of feed is imperative. To feed a hen for fat we cannot expect eggs; to feed for eggs we cannot look for fat. A hen in the height of her laying season will not become overfat from heavy feeding. She will require a lot of food to keep up the strain upon her system, and she will need a surplus to make eggs.

To feed a hen the same during her laying season as she was fed while not laying, is a mistake that a great many make, and it accounts for much of the poor success in getting eggs when they are most needed. If a certain diet has kept the hen in good condition when she was not laying, it will require just that much more, not so much in quantity as quality, to give her the proper material to manufacture eggs.

The great secret of success is to

BUY RED CROSS SEALS TODAY FOR HOLIDAY PACKAGES

What better way of living up to the meaning of Christmas than by stamping your gift packages with Red Cross Seals?

What better way of evincing the right Christmas spirit than by buying your share of the seals—every penny from the sale of which is a source of revenue for the alleviation of human suffering?

Today (Saturday), as we told our readers in last week's issue, the energetic and charitable members of the Woman's Club will be here, and there and everywhere, individually and collectively, selling the tiny squares upon which jolly old Kris Kringle smiles beneficently on responsive humankind.

Sonoma Valley has ever been generously responsive when the call of distress is heard, and so, today, we shall again respond, realizing as we do the great necessity of helping in the campaign being waged against tuberculosis.

Every seal you buy is a bullet in the fight against tuberculosis.

Can you realize that one person dies in the United States from tuberculosis every two minutes and thirty-six seconds, day and night?

Do you know that one death in every seven, in California, is caused by tuberculosis?

Do you know that two hundred thousand lives are sacrificed in our

keep everlastingly at work, and to so shape the work that it will tell best in returns. No man loves to labor without pay, but he will surely do that with poultry if he does not properly manage.

Some men are always working and yet never accomplish anything. They cannot properly direct their work. It is true that in poultry work there is much to do that does not show itself, but there is enough that does display itself to make up for that part which seems hidden. When a man shows good returns from his stock, it is not a question of how he spent his time but how well he spent it.

Those about embarking in poultry culture must keep in mind that it requires capital, business ability and general good management to make a success. Without these qualities none should enter the ranks, and, for that matter, they should enter no other business. There is not so much money in a poultry farm as there is in many other vocations, but there is a good, honest, healthful living in it for those who will properly apply themselves to the task.

Winter Pruning—
 We once asked an old orchardist what he considered the best time for pruning and his answer was: "Whenever you have the shears in your hand." The idea that he wished to convey was that a tree or shrub can be guided and formed at any time. This is largely true, for by pinching back the tender growth and shaping the tree while it is growing, much good work can be done and heavy pruning later can be saved.
 Summer pruning, too, for many varieties has come largely into vogue and for forcing a new growth of fruit wood is probably to be recommended, but still with all this, the principal pruning season for all classes of deciduous trees will be winter, the season when they are in their dormant condition and the sap is not flowing. It is at this time that the best work can be done and with less shock to the growing tree. It is often necessary to remove large limbs; sometimes these will break down and become damaged; or they may be in the way of other growth of the tree and it becomes necessary to remove them; in such cases, their removal might cause a severe shock to the tree in full leaf which the dormant tree will not feel.
 During the winter season, too, the pruner has more time to devote to his work and will do it more carefully than at other periods. So while it may be advisable to use the pruners at any season to a limited extent, where the operation is needed, still winter, while the trees are dormant is the time in which this work must be properly attended to.
 Pruning, of all orchard work, should never be slighted. The mere cutting away of wood from the tree is not pruning; any stupid fellow can do that with a knife and a saw.
 The pruner must know what he wants to do and understand how to work for it. He must be acquainted with the character of the tree he is operating on and understand how to shape it for best results.
 The pruner who understands all this is an artist in his line and worth his weight in gold, while the tree butcher should be shooed off the place.
 Look your trees well over before you do any cutting; thin out well but be cautious about cutting back. And here, too, judgment backed by understanding must be used. Trees that are inclined to run to top, or which bear heavily on the long twigs, must be more severely topped than others which have not this habit. Many apples, for instance, need little pruning other than thinning, while most peaches, on the contrary, require very heavy pruning and severe cutting back.
 Often the careful pruner will be in doubt as to whether to remove a limb or not. In such cases it is best usually to leave it for a season and see how it behaves. If it is in the way it can be cut out next season, whereas if it is necessary to the welfare of the tree it will not grow again when once removed.
 The great art of pruning is, after all, to know your tree, for trees vary in their habits as much as do different species of animals and the treatment that will encourage one will ruin another. So, in pruning, be sure that you understand the character of the tree to be operated on, the manner in which it bears its fruit, for different trees differ very much in this respect, and when you are sure you are right, then go ahead.
Curing Meats on the Farm—
 Meat should be very thoroughly chilled (animal heat removed) previous to being placed into cure, or it will not cure properly, will become pickle-soaked, and sometimes sour in smoking.
 Sprinkle the bottom of the container, as a tub or a tierce, with salt about one inch in depth. Place large pieces, as hams, on the bottom and smaller pieces between the larger pieces, on top. Sprinkle each layer with salt, to which a very small amount of saltpeter and brown sugar have been added, using not more than six ounces of saltpeter and two of pounds brown sugar to one hundred pounds of meat. In place of brown sugar, cane sugar may be used. After the meat has been put down in the container, just cover meat with a pickle of the proportions of nine pounds of salt to five gallons of water. Add or place between the layers of meat three ounces of whole pepper, six ounces of juniper berries, a small amount of bay leaves, and some garlic. Circulate pickle by drawing off once daily from bottom and sprinkle over top of the meat.
 Hams should be cured in about a month, and other pieces according to size. In summer the pickle should be boiled and then cooled before using.
 After curing, soak three minutes for each day in cure; then wash in hot water, wipe dry with cloth, and smoke.

Destroying Weeds—
 It is a rather tedious process and hard on tools to remove weeds or grass from walks by hoeing or cutting them out between the stone, but there are a number of chemicals or sprays which can be used with good success.
 1. Salt Take one pound of salt to one gallon of water, boil and apply while still hot, or dry salt may be used and then watered in, but this will color the walks more or less and is not quite so effective.
 2. Crude carbolic acid, one-half ounce of the liquid to one gallon of water; will also destroy ants.
 3. Sulphuric acid, four fifths of an ounce of the acid to one gallon of water. Best applied with a wooden pail.
 4. Take one pound of powdered arsenic to three gallons of cold water, boil and stir well. Then add seven gallons of cold water with two pounds of sal soda.
 5. Lime and sulphur Ten gallons of water, twenty pounds of quicklime and two pounds of flowers of sulphur are boiled in an iron vessel. After settling, the clear part is dipped off and used when needed.
 There are also a number of commercial weed killers in the market which can be bought at seed stores. Applications of the weed destroyers should be made on a hot day or right after a rain, with a watering pot (sprinkler) and one good application is usually sufficient for the season.
 Pure air and plenty of it is an absolute necessity for turkeys. They will not bear confinement.
 Young ducks should be sold as early as possible, and to that end should be pushed to get their growth.

SHIP SAILS TO BELGIUM,
 The following letter was handed to us too late for publication last week, but we give it space at this late date, since it is a recognition of local contributors:
SONOMA VALLEY CHAMBER OF COMMERCE,
 SONOMA, CALIFORNIA.
 Gentlemen: The Belgian Relief Ship, "The Camino," will sail from Pier 36, San Francisco, on Saturday, Dec. 5th, at 12 o'clock, noon.
 The Belgian Relief Committee wishes to extend to the Sonoma Valley Chamber of Commerce a most cordial invitation to have representatives present on that day and to participate in the occasion of the sending off of California's Relief Ship.
 We hope that we may enjoy the pleasure of having Sonoma represented.

Very truly yours,
